

Building on the trusted legacy of Acucut,  
Shah Eye Care proudly introduces **Acuflow**

# COAXIAL I/A HANDPIECES

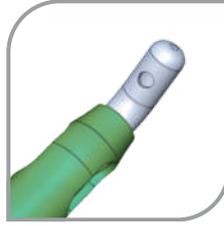

## Acuflow Coaxial I/A Handpieces

The Acuflow Coaxial I/A Handpieces are high-precision, single-use medical device engineered to connect effortlessly to irrigation and aspiration tubing systems. It is compatible with phacoemulsification and vitrectomy devices, ensuring optimal performance during ophthalmic surgeries.

Irrigation sleeve

Aspiration Cannula

Transparent handles

Male and Female luer connector

### Key Features :

- Matt-finished handpiece tip designed for precision polishing.
- Crafted from high-quality stainless steel for better performance.
- Transparent handles ensure superior flow visibility.
- Ergonomically designed handles for enhanced comfort and control.
- Irrigation handpiece features a larger diameter of 1.00x1.20mm with two holes for efficient fluid delivery.
- Aspiration handpiece includes a 0.35mm diameter hole for effective fluid suction.
- ETO sterilized for assured safety and hygiene.
- Thin-wall handpiece ensures maximum flow efficiency.
- Equipped with a standard male and female luer connector for secure and reliable attachment

Product Code	Description	Gauge	Specifications	Qty per Box
SCA2000	Coaxial I/A 20G - Straight	20G	Irr. 2x1.20mm, Asp. 0.35mm Textures, Straight, 0.90mm,	5 Pc. (Sterile)
SCA2045	Coaxial I/A 20G - 45°	20G	Irr. 2x1.20mm, Asp. 0.35mm Textures, 45 degree Angled, 0.90mm,	5 Pc. (Sterile)
SCA2065	Coaxial I/A 20G - 65°	20G	Irr. 2x1.20mm, Asp. 0.35mm Textures, 65 degree Angled, 0.90mm,	5 Pc. (Sterile)
SCA2145	Coaxial I/A 21G - 45°	21G	Irr. 2x1.20mm, Asp. 0.35mm Textures, 45 degree Angled, 0.80mm,	5 Pc. (Sterile)
SCA2165	Coaxial I/A 21G - 65°	21G	Irr. 2x1.20mm, Asp. 0.35mm Textures, 65 degree Angled, 0.80mm,	5 Pc. (Sterile)
SCA2345	Coaxial I/A 23G - 45°	23G	Irr. 2x1.20mm, Asp. 0.35mm Textures, 45 degree Angled, 0.65mm,	5 Pc. (Sterile)
