BIO

INJECTOR FOR FOLDABLE
INTRAOCULAR LENS

ShahInject BIO – Precision Engineered for Confident IOL Delivery

Designed for dependable performance in cataract surgeries, ShahInject BIO offers a single-use injector system that brings together advanced materials and thoughtful design for smooth and controlled IOL implantation.

Crafted with a high-clarity, thin-wall cartridge, ShahInject BIO enables accurate delivery with minimal resistance, ensuring a gentle passage of the intraocular lens into the eye. The use of a specialized low-friction gliding surface helps reduce mechanical stress on the IOL during both loading and implantation.

With ShahInject BIO, surgeons benefit from a streamlined and predictable injection experience, enhancing patient safety, comfort, and surgical efficiency - ideal for routine procedures where consistency is key.
